R 2431.2 Medical Examination to Determine Fitness
For Participation in Athletics

A. The medical examination conducted to determine the fitness of a pupil for participation in athletics shall include, as a minimum, the following:

1. Medical History Questionnaire

A medical history questionnaire will be completed by the parent or legal guardian of the pupil, to determine if the pupil:

- a. Has been medically advised not to participate in any sport, and the reason for such advice,
- b. Is under physician's care and the reasons for such care,
- c. Has experienced loss of consciousness after an injury,
- d. Has experienced a fracture or dislocation,
- e. Has undergone any surgery,
- f. Takes any medication on a regular basis, the names of such medication and the reasons for such medication,
- g. Has allergies including hives, asthma, and reaction to bee stings,
- h. Has experienced frequent chest pains or palpitations,
- i. Has a recent history of fatigue and undue tiredness,
- j. Has a history of fainting with exercise,
- k. Has a history of a family member experiencing sudden death,
- l. Has lost one of a paired organ.

2. Physical Examination

A physical examination will be conducted and will include, as a minimum, no less than the following:

- a. Measurement of weight, height, and blood pressure,
- b. Examination of the skin to determine the presence of infection, scars of previous surgery or trauma, jaundice and purpura,
- c. Examination of the eyes to determine visual acuity, use of eyeglasses or contact lenses and examination of the sclera for the presence of jaundice,
- d. Examination of the ears to determine the presence of acute or chronic infection, perforation of the eardrum and gross hearing loss,
- e. Examination of the nose to assess the presence of deformity which may affect endurance,
- f. Assessment of the neck to determine range of motion and the presence of pain association with such motion,
- g. Examination of chest contour,
- h. Auscultation and percussion of the lungs,
- i. Assessment of the heart with attention to the presence of murmurs, noting rhythm and rate,
- j. Assessment of the abdomen with attention to the possible presence of hepatomegaly, splenomegaly, or abnormal masses,
- k. Assessment of the back to determine range of motion and abnormal curvature of the spine,
- l. Examination of extremities to determine abnormal mobility or immobility, deformity, instability, muscle weakness or atrophy, surgical scars, and varicosities,

- m. Examination of the testes to determine presence and descent of both testes, abnormal masses or configurations, or hernia,
- n. Assessment of physiological maturation, and
- o. Neurological examination to assess balance and coordination and the presence of abnormal reflexes.

B. Health History Update

A health history update, completed by the pupil's parent or legal guardian, shall provide information about any medical problems experienced by the pupil since the last medical examination. As a minimum, the health history update shall include information, if any, about the pupil's:

1. Hospitalizations and operations,
2. Illnesses,
3. Injuries,
4. Care administered by a physician, and
5. Medications.
