

## **6110 Administration and Use of State and Federal Funds**

Consistent with Board policy, the district may apply for federal and/or state assistance under the provisions of public laws. The Superintendent or designee shall inform the Board about specific assurances which may be required in addition to those addressed in this policy, and will provide the required language for Board adoption.

When the law requires the development and implementation of administrative procedures for submitting state and federal financial reports, with specified time schedules, the Superintendent and Board Secretary shall ensure that the staff has properly completed the reports and that in each instance the reports have been submitted within the specified time.

The regular operating budget must include amounts anticipated to be received from state and/or federal sources, and a listing of projects describing how this money will be spent. These recommendations for expenditures will be approved by the Board before projects are submitted.

If additional amounts become available during the year, additional projects will be recommended to the Board and, with its approval, added to the budget.

### Maintenance of Effort

The Board of Education will maintain a combined fiscal effort per pupil or aggregate expenditures of state and local funds with respect to the provision of the public education for the preceding fiscal year that is not less than the required amount of the combined fiscal effort per pupil or the aggregate expenditures for the second preceding fiscal year.

### Equivalence

To be in compliance with the requirements of federal law, the Board of Education directs the Superintendent or designee to assign staff and distribute curriculum materials and instructional supplies to the schools in such a way that equivalence of personnel and materials is ensured among the schools.
